# Install the Patch

You must download the patch executable. Download the following executable file to your desktop.

- Xerox 4110 Copier/Printer -- XC110\_080519\_PS-1.EXE
- Xerox 4590 Copier/Printer -- XC110\_080519\_PS-1.EXE
- Xerox 4595 Copier/Printer -- XC110\_080519\_PS-1.EXE

### Patch Installation Method

This patch and upgrade can and should be installed by the customer.

- Use the self-extracting executable file which will utilize the Firmware Update Tool.

### Using the Firmware Update Tool (self-extracting .EXE):

- 1. The Firmware Update Tool is supported for only the Windows operating systems. If you do not have a Windows operating system, or do not feel comfortable loading the patch, call your local Customer Service Support Center for assistance.
- 2. The Firmware Update Tool uses Port 9100. Therefore, make sure Port 9100 is enabled on the device. To do this:
  - a. Open your web browser and enter http:// and the TCP/IP address of the machine in the Address or Location field of your browser. Press [Enter].
  - b. Click the [Properties] tab.
  - c. Click [Port Status].
  - d. Make sure the checkbox for "Port 9100" is checked (enabled). If not, check the box and then press [Apply] at the bottom of the web page.
- 3. Before proceeding with the upgrade, make sure the device is not in use. This includes any jobs in progress and anyone programming a job at the Local User Interface.

4. Double-click on the XC110\_080519\_PS-1.EXE icon on your desktop. After reading the License Agreement, click AGREE to proceed with installation.

Please read the following license agreement carefully. You must accept the agreement to proceed.

9. Do not press any buttons on the Firmware Update Tool until the "Firmware Update Result is Displayed Below" screen appears. Check the status of the upgrade by scrolling to the right to make sure the device is updated successfully. If successful, click FINISH to exit the tool. If unsuccessful, make sure the correct printer type was chosen, the device was not in use at the time of the upgrade, and that the network is functioning properly. If after checking these and upgrade problems still result, contact your local Customer Service Support Center.
