The SPAR installation notes are located here: https://www.xrsgsn.com/admin/public/3452/WorkCentre_5735-Install_Instructions.pdf

Save the file to a convenient location on your workstation. Unzip the file if necessary.

Read Me First:

When upgrading to **61.132.222.03800** or later from any release less than **61.132.222.03800**, pre-upgrade patch **361374v1.dlm** (found in the .zip file) may need to be installed before upgrading to this latest release. The pre-upgrade patch will retain the **Default Scan Template** settings that were made prior to loading **61.132.222.03800**. If you upgrade to **61.132.222.03800** or later without loading the pre-upgrade patch first, the **Default Scan Template** settings will reset back to factory default at which point you will need to manually set the **Default Scan Template** to the desired settings.
