Unzip the file to a known location on your workstatrion/computer.

# General Information

### Support Log Tab
The previous Network Log functionality on CWIS will now be called Support Logs. These are located under the CWIS Support, Troubleshooting, Support Logs tab and the Properties, Security, Logs, Support Logs tab.

### Software Upgrade Tool
The software upgrade tool has been updated. The tool is no longer packaged with the upgrade DLM files. The same tool is used for all the ConnectKey product family devices. The new tool can support upgrading more than one device at a time and can also support upgrading devices from different product families at the same time. Download the product software upgrade DLMs for the products needed and place in the same directory. Then follow the instructions for using the tool.

### Software Upgrade DLMs
The files used by the Software Upgrade Tool are the same files you would use for a manual upgrade method, such.as with CWIS You must follow the instructions closely. Skipping steps and not using pre-upgrade patches in the correct order will result in lost settings and you will need to reconfigure your machine manually.

### App Management
For more details on the new EIP Apps and App Gallery, please see the document "Readme_2016ConnectKeyDifferences" at URL http://www.support.xerox.com/support/workcentre-7800-series/documentation/enus.html?associatedProduct=WorkCentre-78xxbuilt-in+controller
More information on ConnectKey Apps can be found at this link:
http://www.office.xerox.com/connectkey/apps.

## If you wish to Hide or Delete these Apps, go to the follow location on the device web page:
- Hide the applications (WebUI Properties/Services/Display/Hide)
- Delete the applications (WebUI Properties/Services/Custome Services/Weblet Management/Delete)

**NOTE**: When using Manual Upgrade from any 071 or 072 software version will not install the Apps. You must use the App Gallery on Xerox.com to install the apps.

### ConnectKey Software Version Decoder Ring
The software version numbers have specific meaning. When comparing ConnectKey version numbers to determine older/newer
1) Ensure you only compare those that start with the same first three digits (073),
2) Then look at the last eight digits only.
New General release: 073.xxx.075.34540 - 5= 2015. 345=day 345 of the year. 40 is respin 4.
New SPAR release: 073.xxx.066.08210 - 6=2016. 082=day 82 of the year. 10 is respin 1.
073…534540
073…608210
608210 is a higher number than 534540.
The fixes and features that will be in the 073…5.34540 (general release) are also in 073…6.08210 (SPAR Release)
