System SW version	25.14.42	35.02.32

To obtain these releases please contact the Xerox Technical Support Center and request the applicable release.

Installation Instructions

Note: *If the certificate currently being used for SSL is deleted the device will no longer allow access into Properties>Security>Certificate Management. The install Wizard Tool must be used to recover.*

To determine the currently installed software version:

1. In CentreWare Internet Services, click **Properties > General Setup > Configuration**.
2. Scroll down to **Software** to verify the software version.

To update the software:

1. In CentreWare Internet Services, click **Properties > Services > Machine Software> Upgrades**.
2. Under **Upgrades** select **Enabled**.
3. Click **Apply**.

4. Refresh your browser and navigate to
Properties > Services > Machine Software > Manual Upgrade
5. Under **Manual Upgrade**, click **Browse** to locate and select the software upgrade file in .bin format.
6. Click **Open**.
7. Click **Install Software**. The file is sent to the printer. Once the software is installed, the printer restarts.
8. Check the configuration report to verify that the software has updated.
