SPAR Release R20-01 075.xxx.000.02300

Bulletin Date: February 14, 2020

Purpose

This Bulletin is intended ONLY for the specific security problems identified below. The problems identified have been rated a criticality level of IMPORTANT.

Includes fixes for the following vulnerability:

- Addressed LDAP server vulnerability that allowed Pass-Back attacks to occur
- Update WebUI to prevent attacks leading to authentication to rogue systems

Acknowledgement

Xerox would like to thank Steve Campbell of Securicon, LLC for informing us of Pass-back attack vulnerability.

Software Release Details

If your software is higher or equal to the versions listed below no action is needed.

Otherwise, please review this bulletin and consider installation of this version.

Model	WorkCentre 3655/3655i	WorkCentre 58XX ¹ /58XXi ²	WorkCentre 59XX/59XXi ³	WorkCentre 6655/6655i
System SW version	075.060.000.02300	075.190.000.02300	075.091.000.02300	075.110.000.02300

Unzip the file to a known location on your workstation/computer.

General Information

ConnectKey Software Version Decoder Ring

The Controller type version number is changing.

- ConnectKey products that were previously 073, 072, & 071 will now be 075.
- Altalink products that were previously, 101 & 100 will now be 103.

The software version numbers have specific meaning. When comparing ConnectKey version numbers to determine older/newer

- Ensure you compare those from the same controller family (a & b above).
- Then look at the last eight digits only.

New General release: 075.xxx.075.34540 - 5= 2015. 345=day 345 of the year. 40 is respin 4.

New SPAR release: 073.xxx.066.08210 - 6=2016. 082=day 82 of the year. 10 is respin 1.

073...534540

073...608210

608210 is a higher number than 534540.

The fixes and features that will be in the 073...5.34540 (general release) are also in 073...6.08210 (SPAR Release)
