SPAR Release 075.xxx.030.30710 (R20-10)

Bulletin Date: November 10, 2020

Purpose

This Bulletin is intended ONLY for the specific security issues identified below which have been rated with a criticality level of IMPORTANT.

This is a general release that includes fixes for the following:

- Resolves buffer overflow following PJP commands
- Pages vulnerable to XSS attack
- Removed ability of unauthorized users to delete arbitrary files from disk
- Removed the ability to download files to which the service running on the device has read access

Software Release Details

Please review this bulletin and consider installation of these versions.

Note: If your software is higher or equal to the versions listed below no action is needed.
