Security Bulletin XRX24-007

Xerox® Workplace Suite v5.7.200.30 or 5.7.200.27

Bulletin Date: April 17, 2024

Purpose

This Bulletin is intended ONLY for the specific software identified for security issues which have been rated at a level of IMPORTANT or higher.

Description

The Xerox Workplace Cloud engineering team has identified a CRITICAL vulnerability in the Job Processing feature. Please disable the Job Processing feature until a patch is provided. Xerox will release a subsequent notice as soon as a patch is made available.

Mitigation

To disable Job Processing, navigate to: *Company > Workflows > Desktop Print > Job Processing* page and uncheck to disable.
