

Xerox Security Bulletin XRX26-001

Xerox® DocuShare® Mandatory Security Patch

For: DocuShare® 7.0, 7.5, 7.6, 7.7, 8.0

Deliverable: December 2025 Security Patches

Bulletin Date: January 27, 2026

1.0 Background

Xerox identified and addressed a previously unknown vulnerability that permits authentication bypass under certain conditions. Security updates are now available as described in this bulletin.

Given the potential impact, Xerox recommends prioritizing deployment of the applicable security update at the earliest practicable opportunity.

2.0 Immediate Customer Actions

Apply the applicable hot fix for your DocuShare version as soon as practicable. Until patching is completed, limit administrative interface exposure, enforce multifactor authentication where supported, and review authentication, administrative activity, and system logs for anomalous access or configuration changes consistent with the issue described. Customers who observe suspicious activity or require assistance should contact DocuShare Customer Technical Support for guidance.

3.0 Applicability

Customers may schedule a Xerox Service to deliver or install the Security Patch. A customer can work with the Xerox Service to install the Security Patch Clusters if they have the expertise.

This December 2025 Security Patch Update is available per the information below:

Products	Patch Releases
DocuShare 7.0	DocuShare 7.0 Update 1 Patch 3 Hot Fix 39
DocuShare 7.5	DocuShare 7.5 Patch 2 Hot Fix 9
DocuShare 7.6	DocuShare 7.6 Patch 6 Hot Fix 13
DocuShare 7.7	DocuShare 7.7 Patch 3 Hot Fix 1
DocuShare 8.0	DocuShare 8.0 Patch 1 Hot Fix 2

4.0 Patch Install – Patch Description

Patch	Description
