

Security Bulletin XRX26-005

CVE-2026-2251, CVE-2026-2252

Xerox® FreeFlow® Core before v8.1.0

Bulletin Date: February 12, 2026

Purpose

This Bulletin is intended ONLY for the specific software identified for security issues which have been rated at a level of IMPORTANT or higher.

Description

This release includes security fixes for FreeFlow Core version 8.0.7 to mitigate CVE-2026-2251 (Path Traversal leading to Remote Code Execution (RCE)) and CVE-2026-2252 (XML External Entity (XXE) vulnerability resulting in Server-Side Request Forgery (SSRF)).

Thank you to Moon Back for working with the Xerox team to identify and mitigate these vulnerabilities.

Mitigation

Please consider upgrading to FreeFlow Core version 8.1.0 via the software available on Xerox.com [here](#).
