

Xerox Security Bulletin XRX26-003

Xerox® CentreWare Web®

Mitigations for CVE-2026-1769

Case ID: XSRC-2025-0021

Bulletin Date: February 3, 2026

Purpose

This Bulletin is intended ONLY for the specific software indicated for security issues rated with a criticality level of IMPORTANT or higher.

A Stored XSS vulnerability was identified in the Xerox® CentreWare Web® version 7.0.6. Please consider upgrading Xerox® CentreWare Web® to v7.2.2.25 via the software available on Xerox.com [here](#).

Thank you to Leonardo Sole, Offensive Security Engineer at NTT Data Italia for working with the Xerox team to identify and mitigate this vulnerability.
